DISCUSSION - CORE AREA AND PARKS & WATERFRONT SIGN ZONES

Ned West: Sr. Town Planner, gave a detailed summary of the current Core Area, Parks & Waterfront sign zones. The Town is considering creating new Sign Zones for the Core Area, Parks & Waterfront. A Park & Waterfront Sign Plan can be developed to create consistent design themes to further Town of Dillon branding through consistent sign structures, features, or design elements.

Ned explained that public information signs should have a consistent appearance and architectural character, Town branding, and provide clear messaging. The Town might consider bilingual informational signage as well. In considering a Parks and Waterfront Sign Zone constancy, clear messaging, and Town branding are clear elements to consider, but also unifying elements that say you have arrived in a special place. Informational kiosks can help to inform the public. The stone bollards on Lake Dillon Drive, stone signs and Dillon's gateways are examples of unifying elements already found in Dillon's public realm.

Some examples of signage concepts were reviewed on screen. The members of the group discussed amongst themselves. Branding ideas, common elements, National Park signage and consistency, themes, and current signs. Those present would like Ned to come back with concept designs for review.
