COMMUNITY CONVERSATIONS are designed to be a simple and sociable informal conversation in which a small group of people comes together to get to know one another and understand community issues that are of personal priority and concern. The goal is for everyone to be open and curious about all perspectives and see what we learn from one another, rather than to debate any particular topic or issue. Community Conversations are scheduled for an hour and a half and will range over a variety of topics. The goal is to conduct Community Conversations regularly, in a variety of locations and times. A recap of the Conversations will be provided at the following Council Work Session.
