

**TOWN OF DILLON  
PRACC MEETING NOTES**

**REGULAR MEETING  
MONDAY, April 1, 2024  
5:00 p.m.**

**Dillon Nature Preserve and Cemetery**

**CALL TO ORDER**

The regular meeting of the PRAC Committee of the Town of Dillon, Colorado, was held on Monday, July 10, 2023, in person at the Dillon Council Chambers. Eric Nichols called the meeting to order at 5:02 pm. Committee members present were Maureen Lopp and Louis Skowrya. Staff members present were Jessie Klehfoth, Events and Recreation Director; Scott O'Brien, Public Works Director; Jon Blank, Planner I; and Renee Imamura, Town Council Representative.

**APPROVAL OF THE MINUTES OF March 4, 2024, REGULAR MEETING**

Maureen Lopp moved to approve the minutes from the March 4, 2024, regular meeting. Louis Skowrya seconded the motion, which passed unanimously.

**NEW BUSINESS**

Scott O'Brien introduced the first order of new business, Trails Master Plan Final Report Review, noting that not much has changed in terms of planned trails improvements. He then mentioned the cost estimate and noted that it has not changed either, except for the grouping of different elements. He acknowledged the large final amount and discussed what contributed to that number.

Scott then moved to discuss the changes in priorities that came from Council's review of the final report. He acknowledged that Council really wanted to emphasize connectivity to Town Core from other areas of town.

Maureen Lopp asked about what we could expect to see come about within the next year or two. Scott O'Brien referenced the importance of nature preserve parking updates and picnic shelters. He then ran through the different tiers of importance that came as a result of the Council's review. The group then discussed different improvements of connectivity that could be done within this plan.

Jon Blank then introduced himself and began the discussion of trash and recycling enclosures, and some sustainability goals he has been working on for the Town. Scott gave some more insight on the trash and recycling enclosure, sharing that the main idea is to instead of placing multiple dumpsters all over town, creating one or two large enclosures that are the main spot for trash and recycling. He asked the committee for their feedback and the committee was supportive of the project.

Jon then moved on to the sustainability goals he has been working on. He covered his participation on CC4CA, Xcel Partners in Energy, and SolSmart. He is also working on a demonstration garden for water efficiency, a nature preserve hazardous fuel reduction grant, and has been attending zero waste task force meetings. Lastly, he has created a development permit applications in Spanish and is working on implementing sustainability initiatives into comp plan.

**PUBLIC COMMENT**

No public was present for comment.

**FUTURE AGENDA ITEMS**

Open positions on PRACC

**ADJOURNMENT**

There being no further business, Eric Nicholds adjourned the meeting at 6:00 p.m.

Respectfully submitted,
