

Dillon Town Center Revitalization

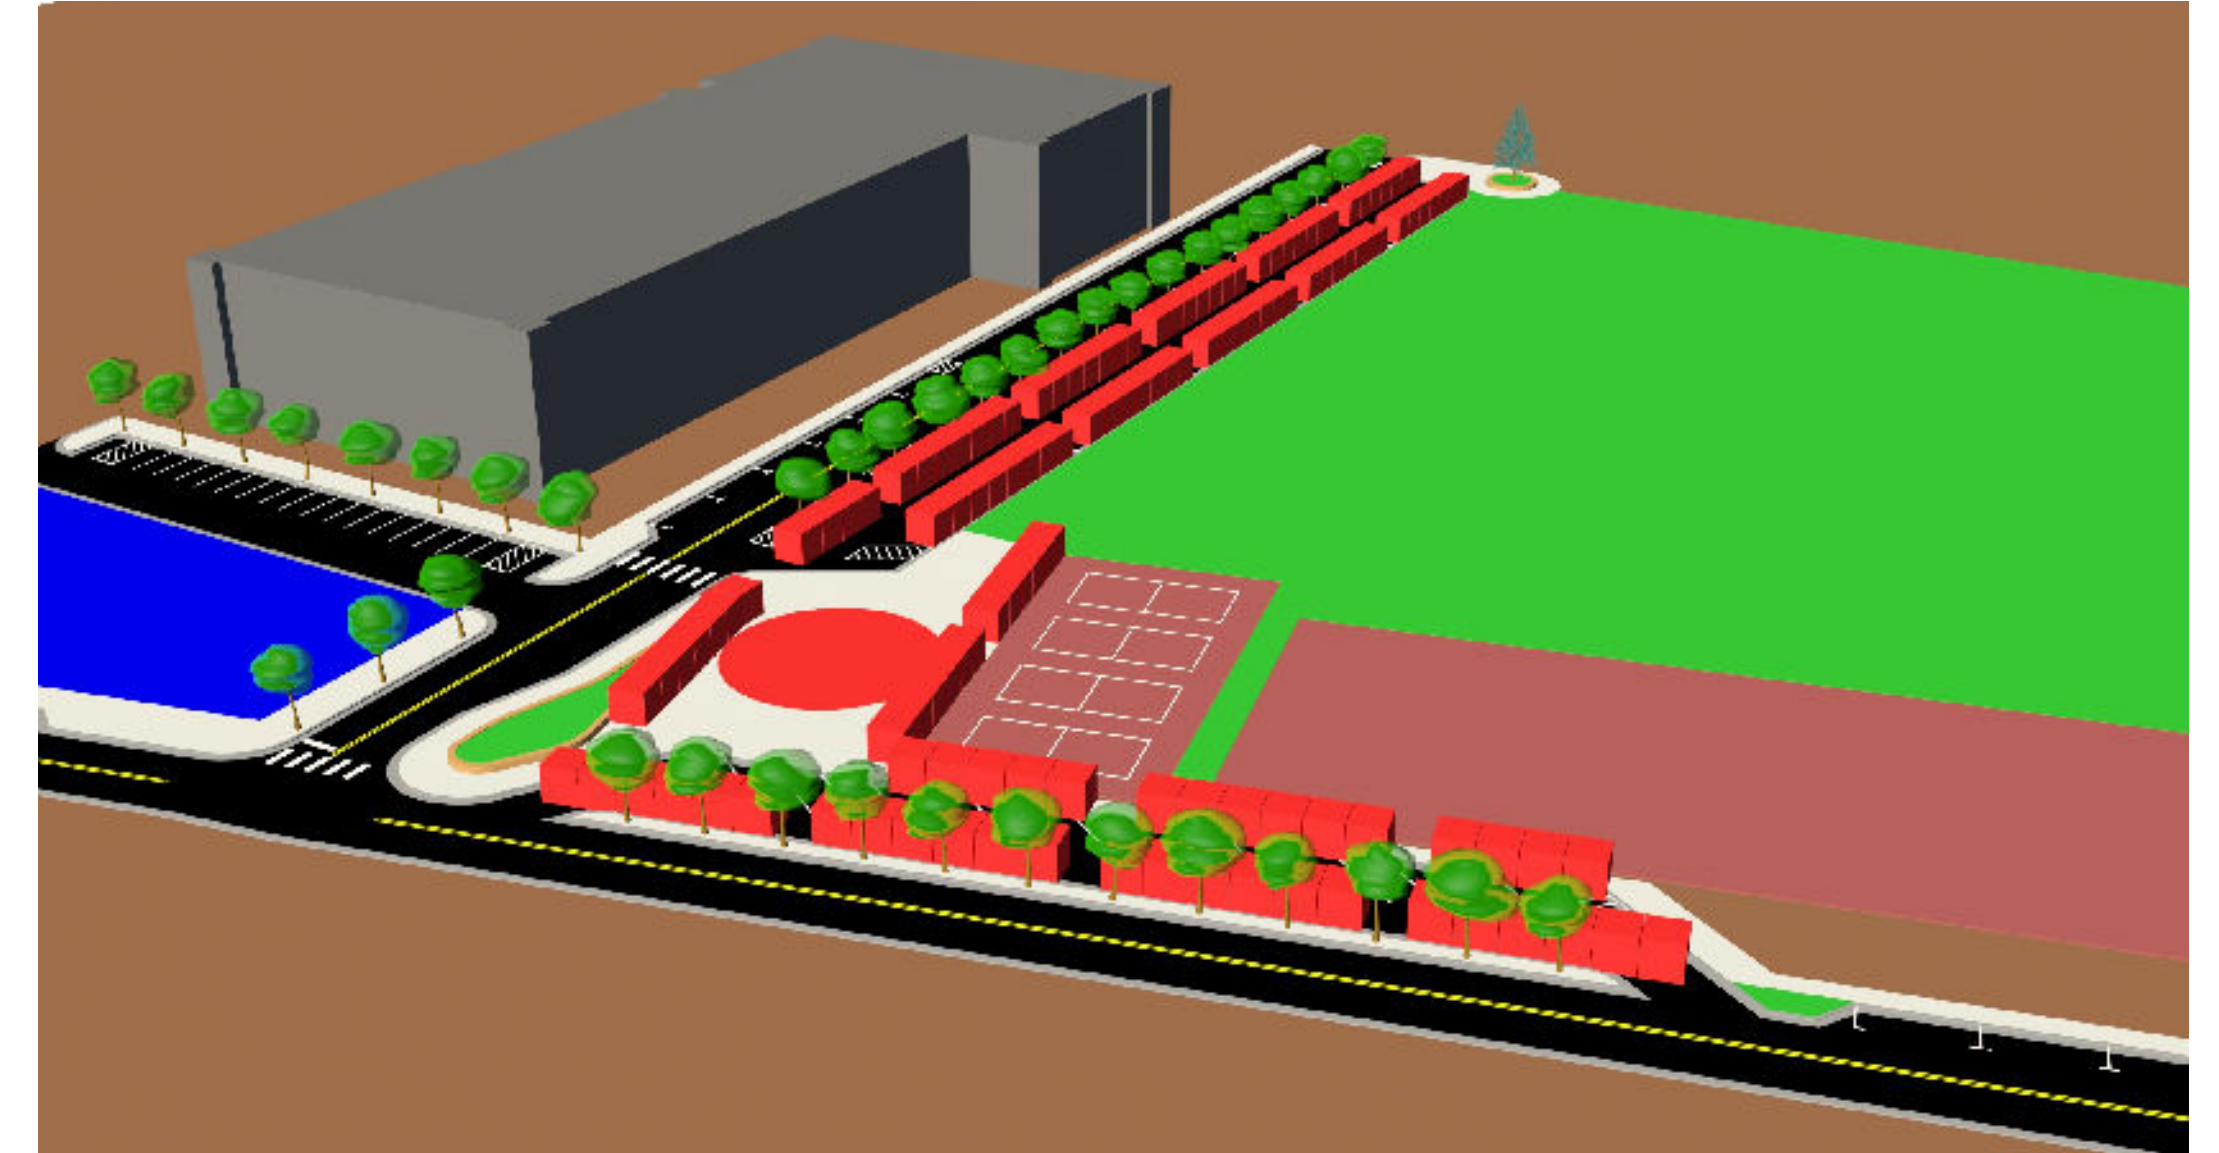

Future Farmer's Market Location

 **Dillon Town Center Location Map**

Key Design Concepts

HOST MARKET IN TOWN PARK PARKING LOTS	The (2) two Town Park parking lots along Buffalo and LaBonte Street can be easily closed to facilitate the Farmer's Market
KEEP BUFFALO STREET OPEN	This approach to the Farmer's Market allows the Town to maintain traffic on both Buffalo Street and LaBonte Streets during events like the Farmer's Market, and minimize disruptions to Town Center residents and businesses.
CREATE MARKET PLAZA	The southeast corner of Town Park can be designed as a Plaza to support the center of the Farmer's Market activity. This ties the two legs of the event together. This could eventually host a pavilion or other amenities.

Farmer's Market in Town Park Parking Lots
